FELLOWSHIPS AND RESEARCH GRANTS RECEIVED

Agency & Number / Title PI or co-PI	Duration of Grant	Amount	Purpose
California Endowment (Dr. Neal Halfon Dr. Helen DuPleiss), Co-PI	7/97 – 6/99	\$700,00	This study was designed to establish a School Resource Program to address barriers to student learning and enhance healthy development. While many schools in California are developing school-based and school-linked health and social services -- a trend sparked by passage of the Senate Bill 620

Agency & Number / Title PI or co-PI	Duration of Grant	Amount	Purpose
State of California, Office of Child Abuse Prevention, PI	10/98 – 6/01	\$975,000	<p>(Healthy Start Initiative), many services are piecemeal, disorganized and do not provide for a comprehensive approach. The School Resource Program assisted schools to develop frameworks for program development that is both necessary and complementary to emerging school restructuring and Countywide managed care efforts. The Program worked with school districts, school clusters, and school complexes providing technical assistance. Office of Child Abuse Prevention, within the Division of Children’s Services of the California Department of Social Services, has, since its inception in 1979, sponsored a number of important programmatic, training and service organization initiatives to help children and families in California. The focus of many of these has been on encouraging and supporting service collaboration and coordination at the County level. The primary focus of this evaluation is the effect of these various State programs and initiatives have on changing structures and processes at the County level.</p>
State of California, Office of Child Abuse Prevention, PI	7/01 – 6/04	\$945,000	<p>Office of Child Abuse Prevention, within the Division of Children’s Services of the California Department of Social Services, has, since its inception in 1979, sponsored a number of important programmatic, training and service organization initiatives to help children and families in California. The focus of many of these has been on encouraging and supporting service collaboration and coordination at the County level. The primary focus of this evaluation is the effect of a State funded initiative called the Small County Initiative (SCI). The purpose of this initiative is to enhance the prevention services in 12 ‘small’ counties in California. This is particularly important given the unique challenges faced by counties that are very large in size but have a very scattered population.</p>
First 5 California Statewide Evaluation (Dr. Neal Halfon), Co-PI	5/02 – 2/05	\$2,800,000	<p>The goal of this evaluation is to understand and document the implementation and the effects of services and programs on children, families, communities, and systems of care in order to promote the most promising public policies to support children, families, and communities throughout the State of California.</p>
First 5 Ventura, Co-PI’s Neal Halfon, Todd Franke	7/1/04 – 6/30/05	\$320,078	<p>The goal of this evaluation is to understand and document the implementation and the effects of services and programs on children, families, communities, and systems of care in order to promote the most promising public policies to support children,</p>

Agency & Number / Title PI or co-PI	Duration of Grant	Amount	Purpose
State of California- Office of Child Abuse Prevention, Todd Franke, PI	7/1/04 - 6/30/07	\$780,028	<p>families, and communities in Ventura County. Office of Child Abuse Prevention, within the Division of Children’s Services of the California Department of Social Services, has, since its inception in 1979, sponsored a number of important programmatic, training and service organization initiatives to help children and families in California. The focus of many of these has been on encouraging and supporting service collaboration and coordination at the County level. The primary focus of this evaluation is the effect of a State funded initiative called the Small County Initiative (SCI). The purpose of this initiative is to enhance the prevention services in 12 ‘small’ counties in California. This is particularly important given the unique challenges faced by counties that are very large in size but have a very scattered population.</p>
First 5 Tulare, PI	1/1/05 – 12/31/08	\$950,000	<p>The goal of this evaluation is to understand and document the implementation and the effects of services and programs on children, families, communities, and systems of care in order to promote the most promising public policies to support children, families, and communities in Ventura County.</p>
First 5 Los Angeles Partnership for Families Initiative, PI	11/1/04 – 10/31/09	\$2,750,000	<p>Partnerships for Families is a secondary prevention initiative that is designed to prevent child maltreatment by creating opportunities for families, communities, and governmental entities to meaningfully partner in the prevention of child abuse and neglect. The evaluation utilizes a mixed methods approach and is designed to embrace and articulate the diversity in contexts and strategies of different Community Networks and the lessons that can be learned from this variability.</p>
First 5 Kings County, PI	7/1/06-7/31/10	\$560,000	<p>The goal of this evaluation is to understand and document the implementation and the effects of services and programs on children, families, communities, and systems of care in order to promote the most promising public policies to support children, families, and communities in Kings County.</p>
Haynes Foundation, PI (Jorja Leap)	5/1/08-4/30/10	\$252,758	<p>The proposed study is to conduct a Success Case Study of former HBI clients. The purpose of the Success Case Study is to identify the HBI program components and the individual, family, and community factors that enable clients to successfully exit from gang life. This in-depth qualitative study is examining a random sample of 10 “successful” HBI clients (5 male/5 females who have been out of gang life for more than 3 years) and 10 “struggling” (5 male/5 females who have been associated with HBI</p>

First 5 Los Angeles-Best Start Initiative, PI	12/01/09-6/30/15	\$2,002,000	<p>but have not successfully exited gang life). Data from this study will inform the development of a screening measure that will be used to identify the combination of individual, family, and contextual factors that lead to success in HBI's primary intervention, the in-residence job training and employment program. Best Start Evaluation (Best Start LA). Best Start LA is a program designed to optimize the social, emotional, cognitive, language, physical and motor development of Los Angeles County's youngest children within the context of the multiple environments that affect their development. Best RLA reflects a paradigm shift from targeting families for direct services to engaging families in their role as the most critical developmental environment for young children from in-utero stage through toddler years. The purpose of the initial evaluation effort was to document activities and costs for all components of the Mental Health Services Act (MHSA or the Act), determine impact of the MHSA on clients with mental illness/emotional disturbance and their families², and measure impact of the MHSA on California's public community mental health system.</p>
Initial Statewide Mental Health Evaluation: State of California Department of Mental Health, PI	2/1/11 – 9/30/14	\$1,270,000	<p>The purpose of the expanded evaluation effort was to: 1) determine per person costs and provide a financial analysis of the achieved outcomes/benefits of full service partnerships; 2) using participatory research, determine the impact of selected services/strategies on outcomes specified in the Mental Health Services Act (MHSA or Act) or system of care statutes; and 3) obtain recommendations for future evaluation activities/strategies.</p>
Expanded Statewide Mental Health Evaluation: State of California Department of Mental Health, PI	4/1/11 – 3/31/14	\$998,000	<p>The purpose of this funding is to work collaboratively with the DCFS and the ECE Early-Head Start sites to increase access and utilization of quality early childhood education services by foster families with children 0-5</p>
The Los Angeles Child Welfare-Early Education Partners Infrastructure Project (ACF), PI	9/30/11 – 2/28/13	\$249,995	<p>Design and conduct an evaluation of “Building a Lifetime of Options and Opportunities for Men” (BLOOM). Black youth make up 10 percent of the youth in Los Angeles County, yet they comprise approximately 30 percent of those under probation supervision. The goal of the initiative is to develop the skills they need to excel in the classroom moving them toward high school completion and post-secondary opportunities.</p>
California Community Foundation, PI	9/1/12-8/30/13	\$125,000	<p>Design and conduct an evaluation of “Building a Lifetime of Options and Opportunities for Men” (BLOOM). Black youth make up 10 percent of the</p>

Alliance for Children's Rights, PI	1/1/15-12/31/17	\$100,000	youth in Los Angeles County, yet they comprise approximately 30 percent of those under probation supervision. The goal of the initiative is to develop the skills they need to excel in the classroom moving them toward high school completion and post-secondary opportunities. Design and conduct an evaluation of the "Opportunity Youth Collaborative Initiative" which is utilizing a "collective impact" approach to address the challenges faced by transitioning foster youth ages 16 – 24.
Children's Institute International, (CII)	10/1/16 – 9/30/18	\$400,000	The goal of the project Fatherhood evaluation is to assess the CII's efforts to re-engage low-income fathers, particularly in urban settings, in the care and upbringing of their children. The overall goal of this collaborative project is to increase the professional skills and knowledge of Los Angeles County public child welfare workers. The UCCF Training Project is responsible for developing, providing and evaluating the vast majority of the trainings for all of the more than 4000 child welfare workers, supervisors and management staff in the LA DCFS.
Los Angeles Department of Children and Family Services, PI	4/1/2014 - 9/30/2018	\$42,150,493	The overall goal of this national project is to evaluate the data related to human resources, readiness for change, agency culture and climate, turnover, and secondary trauma among child welfare workers across 8 sites in the US.
Quality Improvement Center for Workforce Development (QIC-WD)	09/30/17-09/29/2019	\$535,032.00	The Nebraska Administrative Data project is an opportunity for a PhD student to gain experience manipulating and analyzing data from a statewide data system to answers questions posed by the State of Nebraska.
Nebraska Administrative Data Analysis	04/01/19-11/30/19	\$89,847.00	The overall goals of Parks After Dark (PAD) are to: a) increase access to free recreational programming and health and social services for community members of all ages in disadvantaged communities; b) facilitate cross-sector collaboration in park communities and countywide; c) decrease community violence and increase perception of safety; d) increase physical activity and decrease chronic disease risk; e) increase social cohesion and family and community well-being; and f) achieve cost savings.
Parks After Dark Evaluation Services	10/02/18-06/30/20	\$406,108.00	The overall goal of this collaborative project remains similar to the goal described above. In addition, we are moving into visualizing the vast array of data under the purview of DCFS and moving into how professional development of DCFS staff and leadership impacts child and family safety.
Los Angeles Department of Children and Family Services, PI	10/1/2018 - 6/30/2021	\$41,622,000	

Agency & Number / Title PI or co-PI	Duration of Grant	Amount	Purpose
LAC/DCFS Evaluation Services Contract	11/1/17-10/9/20	\$90,000	This is a small evaluation of a pilot undertaken by DCFS to implement a web-based alternative to the existing phone based 'hotline' for reporting suspected child abuse and neglect.
County of Los Angeles Dept. of Mental Health, "UCLA-DMH Affiliation Agreement	07/01/19-06/30/20	\$1,144,946	The goal of this project is to investigate the impact of providing trauma informed training to Teachers in LAUSD, LACOE, 'schools' meant to serve youth recently released from juvenile justice and probation officers.
